Dear Joel,
a copy of PIONEER PRAVDA I am sending
to you is the key to our future life.
Editors asked me to inform you
that they are ready to create ELECTRONIC
CAFE for non stop communications
with american kids. The first session they are
ready to create withing next two weeks.
The whole page will be describing
this Event to millions of kids.
It will influence the future of computer
education in our country.
Summer computer camp is already organised
by Electronic Screen [Leonid recieved a call from
PIONEER PRAVDA and we are working together].
Also a gave a copy of this paper to Yuri Lepsky, and he
agreed to share the equipment with
younger brothers...

Linda with her YOUTH AMBASSADORS initiative
is also interested in this work.

Meanwhile, the MAIN issue helped me a lot
to make another effort to create
Global Yown Meeting on the Day of
inauguration in Vienna, May the 17th.
PIONEER PRAVDA will use all her
power to involve kids in preparatons.
MIRROR FOR HUMANITY will be their
universal GAME untill the next
century. Are you still with me?

I invited Tom Sewell to create a small
WORKING GROUP under this title
and start coordination and creation of master
plan for this event. I did not care
about attitudes and problems of local bureacracy when a moved boulder
BOULDER to Vienna. I less care about attitudes of
Austrian TV and their commitment to
do the First Global Town Meeting.
The Author of the Project, an Austrian
Sculptor Gottfried Bechtold asked me to create
Mirror for Humanity ritual [he also sent a
telex to Don Carlson]. It is an honour to do it.

As I have written to Tom, citizen diplomacy
has left its infancy. It is a time to see the
difference between advanced tourists, businessman in new
area, paid propaganda proffi infiltrated into the field
and citizen diplomates. The best way to separate
and to unite a new world phenomena is to
visualise and accomplish a World Even
Global Town Meeting, what manifest a birth
of Citizen Diplomacy as a new world power.
POWER....

I trust you understand me, Joel
